

GRAM SEVA TRUST

Dedicated to Health Care and Rural Development

24th
ANNUAL REPORT
2017-18

About the organization

This logo symbolizes the objectives of the organization.

- The words in the outer circle are from the great Indian epic "Mahabharat", saying that "nothing is above a Human". This is also the motto of the organization.
- The triangle in the inner circle symbolizes the hands of three people and stands for community development through participation.
- The light from the lamp in the small hut in the centre symbolizes the development of the weakest and poorest person of the community.

Founder trustees of the organization were inspired by Gandhian thinking and work of great men like Albert Schweitzer. They felt deeply the agony and hopelessness of poor villagers. They saw the plight of villagers and felt a need of medical services in these villages. Hence they brought like minded friends together and founded Gram Seva Trust, an organization dedicated to rural health and development.

In 1994 the trust started a 30 bedded hospital with 5 staff members in an old dilapidated building, given by another trust. As the need arose the hospital was expanded to accommodate more patients and better services. Today the hospital can accommodate 80 patients and has all basic facilities required in a rural hospital providing health services at affordable rates and sometimes free of charge to the needy from nearly 300 surrounding villages of Navsari and Dang districts.

The organization also wanted to improve health of the surrounding villages hence as and when need was identified different community projects were started in the surrounding villages with main focus on health and development of women and children. Immense efforts are put in to decrease malnutrition. Gram Seva Trust also reaches out to the tribals in deep interior villages of Vansda and Dang through satellite centers and general medical mega camps arranged every year.

The organization has also started different projects for development of villages like Self Help Group project (a micro saving and micro lending project for women), trainings for income generation activities, adolescent girl project, tutorial classes to strengthen primary education and a Child Education and Development Centre to improve standard of education in children of landless labourers.

Vision

- Healthy, Happy, Self sufficient and Self-Empowered Rural communities.

Mission

- Cater to the Health need of every individual in the society irrespective of caste, creed or economic status.
- Render special care to women and children of our society.
- Promote curative and preventive measures in order to improve the general well being of the society.
- Uplift social and economical status as well as rural development with scientific and rational approach.
- Create awareness for healthy qualitative life and development.

Dear Friends,

Gram Seva is happy to share with you the annual activity and audit report. The organization that was started with the motto, "Nothing is above Human beings" has completed 24 years of health and development activities for people, irrespective of their caste, creed, community and economic status. 'Samvedan' newsletter brings to you the activities done by Gram Seva during the year. This year along with regular activities the organization has also started some new activities like, an additional satellite centre at Shivarimal village in Dang; Health, hygiene and nutrition education project for primary school students and Women's Health Screening Project. Efforts have also been made to strengthen women's entrepreneurship through the Kitchen Garden Project and Sangee Sanitary Napkin Project by making new wings sanitary napkin as per market demand.

This year four trustees have resigned due to personal and health reasons and new trustees have been appointed.

Change is inevitable and due to the continuous social changes new problems arise in the community, which need to be addressed. Gram Seva has always tried to do need based community health and development activities which has given the satisfaction of using the available resources for necessary purpose. The rural areas are still in need of development activities in sanitation, hygiene, income generation especially small scale industries for women, education, medical services to interior areas and health awareness in the community. The organization needs skilled personnel, technology and monetary resources for these activities.

Your guidance and well wishes shall help the organization to implement these projects and reach to the needy, poorest and most remote people in the community.

Date: 2nd October, 2018

Place : Kharel

Thank you,

Dr.Ashwin Shah,

(Managing Trustee)

On Behalf of Gram Seva Family

New Projects and Activities

New Satellite Centre at Shivarimal, Dang

The organization has started the satellite project in interior villages of Dang to provide health services in this remote, hilly region to the tribal community. This year a new satellite centre was started in the campus of "Pragnya School for the Blind and Handicap" at Shivarimal in Dang district, with the support of Manav Kalyan Trust, Navsari. Dr. Sanat Joshi and Dr. Shobha Joshi have voluntarily offered their services for the satellite project. They and team of paramedical staff provide medical and laboratory services in the health dispensary at the centre, every Thursday.

Primary School Health, Hygiene and Nutrition Education Project

Majority of the infectious diseases are spread due to lack of sanitation and hygiene. Teaching primary school students about health and hygiene and helping them to inculcate healthy habits at an early age shall help them become healthy citizens in future. With this objective 14 primary schools in the surrounding villages were selected to give health education to the students regarding health, hygiene and nutrition. To make these sessions interesting for students, the messages were incorporated in games and songs. 867 students of 1 to 4th enjoyed these sessions and seeing the overwhelming response of students and teachers, it was decided to continue the project this year for students of std. 1 to 8 of 17 schools. Monetary support for this project is provided by Desai Foundation U.S.A.

Permanent Projects

Hospital Services

The hospital services were started to provide medical services to the poor and needy communities in the surrounding villages. Other than the basic Medicine, Obstetrics & Gynaecology, Surgery and Paediatric services, Ophthalmology, Skin, Orthopedics, Plastic Surgery, Dental, ENT, physiotherapy were also added over the years. The hospital is also equipped with digital X-Ray, Ultrasound, Laboratory, ICU, NICU, Operation theatres, Labour rooms and dialysis facilities. The indoor general ward hospitalization rates are kept as low as ₹ 30 so as to allow access to the poor tribal people. In spite of the increasing remuneration and other administration costs the organization has tried to keep the fees low and affordable. Hence the hospital services are sought by the people of nearly 300 villages of Navsari, Surat and Dang Districts. (Refer to Table: 1)

Sukhabhai Govindji Eye Department

Cataract is the most common health problem of the elderly in the surrounding villages but due to social and economic reasons it is neglected. Sukhabhai Govindji Eye Department in the hospital provides affordable and quality eye care to such patients. With the strong support of Rotary Eye hospital and its team free eye camps are conducted every month. Due to monetary support of generous donors and District Blindness control Society, this year 15 free eye camps were conducted where 4439 patients were checked, 263 were operated for cataract and 953 were given free spectacles.

Newborns in the hospital are also checked every 2nd and 4th Saturday by team of experts from Tejas Eye Hospital, Mandvi.

hospital provides 24 X 7 obstetrical services by its team of expert doctors and paramedical staff. Good quality obstetrical care is not only provided during labour but also throughout pregnancy. Free antenatal clinics are conducted thrice a week so that the economically poor have access to these services. Even obstetrical deliveries are conducted at affordable rates of ₹ 3000 for a normal delivery or free of charge through government benefit schemes like Cheeranjeevi.

This year 4143 pregnant women received free antenatal care out of which 1494 were delivered. 1189 of these deliveries were done free of charge under the Cheeranjeevi Scheme.

Mamtaghar was started so that high risk pregnant women and those coming from interior areas receive timely emergency medical and obstetrical services. These women can admitted in the hospital 8 to 10 days prior to their delivery and provided free food and medical care till their safe deliveries. This year 445 such pregnant women benefited from this facility.

Dialysis

Changing lifestyles have increased the prevalence of kidney diseases in the community. Many of these patients require continuous and regular dialysis services. To provide the rural people affordable dialysis facility near their villages a dialysis centre was started in the hospital. This year 1059 sessions were conducted out of which 444 sessions were provided totally free of charges.

NICU

Preterm and low birth weight newborns need intensive care to survive. Neonatal intensive care services are very expensive and available mostly in the cities. To provide affordable neonatal services to rural poor families, a Neonatal Intensive Care Unit was started in the Hospital. This year 214 neonates were admitted in NICU and provided medical services free of charge. Out of these 184 (86%) survived.

Medical Relief

The organization believes that no patient should be denied

medical care for lack of money. Keeping this objective in mind the hospital charges have been kept low and partial or complete relief is also given in bills of poor patients. Monetary support by generous donors and well wishers has helped us in our relief activities. OPD patients are given medicines free of charge. Medicines at the hospital pharmaceutical store are sold at less than MRP rates for no profit no loss. Thus the total relief given to patients throughout the year amounts to ₹2,05,16,900/-

The organization is always in needs of funds to implement different health and development activities for the rural, tribal community. We hope that with your continuous support and well wishes we can continue these activities and contribute to their development.

One afternoon, a second time pregnant Sitaben (name changed) from interior village of Dang was brought to our hospital in a very serious condition. She was unconscious, with poor vital health parameters and nearly dying. She had labour pains for nearly 24 hours and had not received proper treatment in the interior areas. She had been referred from one hospital to another without any treatment. In the end her condition worsened and Sitaben was referred to Kharel in this serious condition. On examination our doctors found that her uterus had ruptured and the baby was dead. This is a very serious condition where the woman also loses a lot of blood and may also die. She was immediately operated upon and her uterus repaired. Sitaben had lost lots of blood and needed few blood transfusions. She was stable after 17 days of treatment and then sent home. Hard work, diligence and empathy by our doctors and paramedical staff saved this woman and gave back a mother to her first child. **Could we have saved Sitaben's baby if she had come earlier? Why are delivery and other essential health services not available in interior areas? How can we prevent maternal mortality without proper services? These questions remain unanswered.**

Sahil was a 9 year old child from Chikarpada village in Maharashtra but on the borders of Gujarat. He had deformity in both legs since birth due to which he could not walk. But Sahil was interested in studying and hence his parents carried him to school, everyday. Sahil's parents were poor labourers and could not afford expensive treatments in private hospitals. They took him to government hospitals at block and district level but he did not receive any treatment. One day Gram Seva team, which was advertising about the free annual general medical camp in the border villages of Gujarat and Maharashtra, reached Sahil's village. When his school teacher heard about the camp he brought the child to the team and asked if Sahil would get any treatment. They advised to bring Sahil to the camp where he can be examined by Orthopedic surgeon and if no treatment was available he would be given a light weight tricycle so that he had some mobility. Sahil was brought to the camp and later admitted at Kharel hospital for surgeries. He underwent surgeries and physiotherapy. No charges were taken from his parents. After about a month of hospitalization Saahil was discharged. Today a happy Saahil walks to school and attends classes regularly.

New Experiments and Enduring Hopes

Man has this innate need to be of help to his fellow beings. Whether this help is small or big does not matter. What matters most is the feeling of being useful and the satisfaction of helping others to the best of our capacity. On this basis Gram Seva has started an experiment in OPD since last two years. All OPD patients are given free medicines to help the economically poor. At the same time a donation box has been kept in the OPD so that those patients and their relatives who wish to support this cause, irrespective of the magnitude of their help, can drop their donations in this box. Every month the cost of OPD medicines amounts to ₹ 1,00,000/- but in the last two years there has been no positive response and donations from patients and their relatives. Yet without losing any hope Gram Seva continues this experiment and quest for supporters.

Annapurna Bhojnalay

Patients coming to the hospital are poor and from interior villages. In order to provide them low cost and clean, nutritious food the Annapurna Bhojnalay was started. Free food is given to all patients in general ward and their attendants. Others are also given food at marginal price. This year 73717 food dishes were served out of which 70620 were free dishes. Funds for Annapurna Bhojnalay are generated through different donation schemes which have been given on page no. 35

Satellite Centres

The interior hilly forest villages of Dang have poor health and transport facilities. In order to provide health services to the poor tribal people in these villages two satellite health centres were started in Dang district. Team of doctors and paramedical staff visits Shivarimal Health Centre on Thursday and Kudkas Health Centre on Friday. Those patients requiring further management are brought to Kharel Hospital. This year 7384 patients were treated in these two centres out of which 82 patients requiring further management were brought to

Kharel.

General Medical Camps

The border villages of Gujarat and Maharashtra have little access to health services due to lack of health, transport and communication facilities. The region is hilly, forest area inhabited by very poor tribal communities. Gram Seva conducts general medical and surgical camps in such interior villages every year. Experts from different medical fields provide their services during this camp. Patients are not only checked and treated in camps but those requiring further surgical or medical management are brought to Kharel Hospital and given treatment. It is seen that patients in these interior villages wait in anticipation of these camps for their treatment. Donors who give monetary support also attend these camps and experience the satisfaction of helping these poor patients. They are eager to generate more funds for such camps every year.

*The purpose of life is a life of purpose

Community Health Projects

Child Health and Nutrition Project

Healthy childhood is the base for a healthy adult life. Malnutrition during childhood affects the growth and development of the individual. A significant number of children in tribal areas are malnourished due to which they have health problems in childhood itself but in future too. Hence Gram Seva has adopted 101 Anganwadis (village child care and pre-school education centres) of 22 villages and looks after the medical and nutritional care of the children aged 0 to 5 years in these Anganwadis. The children are checked every month by medical officers and given medical care at the same time village health workers visit the families of these children and guide them in health care and nutrition of the children. Efforts are made for overall health and development of the children.

Antenatal Care:

Women not only need medical care during pregnancy but also support and guidance regarding nutrition and other health factors. Lack of awareness can lead to many harmful practices and negligence detrimental to their and their baby's health. Village level workers counsel the pregnant women regarding nutrition and care to be taken during pregnancy. High risk women are identified and counseled regarding planning for safe delivery. Not only the pregnant women but their families too need counseling and education which is done through home visits and village level health education sessions. This

Table: 5 - Child health and Nutrition Project

Year	0-5 year old children registered in the project	Normal Nutrition	Mild malnutrition	Severe malnutrition
2016-17	2939	1834 (62.4 %)	869 (29.5 %)	236 (8.02%)
2017-18	2786	1682 (60 %)	872 (31 %)	232 (8.3%)

year 985 pregnant women were followed in the villages out of which 662 delivered. 99.55% had safe institutional deliveries.

Adolescent Health Project:

Adolescence is a turbulent phase in life. Adolescents need to be given scientific and rational information about their physical and mental changes. They need guidance and counseling to cope with these changes and the resulting turmoil. Gram Seva conducts health education sessions for adolescents in villages and in schools. They are given information regarding physiological changes in adolescence, nutrition, addiction, hygiene and healthy lifestyle, through videos and games. This year health education workshops were also conducted for 1255 students of 7 high-schools.

Geriatric Health Project

Non communicable diseases like Hypertension and Diabetes are increasing in the community due to longevity and change in life styles. Old people in villages are unable to have access to medical services due to social and economic reasons. Neglect and loneliness increase the difficulties in this late period of their life. Health workers of Gram Seva conduct preliminary screening at the village level of all those above 50 years of age, for Hypertension, Diabetes, Cataract, Arthritis, Deafness, Dental problems, Gynaecological problems etc. Those requiring management are given medical services at Kharel Hospital. Screening has been completed in 15 villages in three stages. Total 3266 people have been screened in these villages. The table below gives the number of patients diagnosed with health problems in these 15 villages. Seeing

Table: 6 - Adolescent Health Project

Sr. No	Particulars of Health Education in villages	Adol. Girls	Adol.Boys	Total
1	HE sessions/year	466	120	586
2	Avg. sessions / month	39	10	49
3	Avg. attendance / month	521	136	657

Mangiben (name changed) resident of Gandeva village, 2 km away from the hospital was suffering from Hypertension. But she was irregular in taking her medicines and had stopped them since last few months. Field workers of Gram Seva geriatric project were screening the elderly villagers for hypertension and diabetes when they found that Mangiben's blood pressure was high. They advised her to visit Kharel hospital for further checkup and medicines. But Mangiben avoided going to the hospital. Frequent home visits and counseling were not having any affect on her. In the end the workers gathered her family members and explained the situation. They informed them about the effects of hypertension and its complications. They informed them why Mangiben needed to take medicines regularly and how the treatment at Kharel hospital was inexpensive. The family members were now convinced and they forced Mangiben to go for her check up and start medicines. Now she is regular in her treatment. This shows that even today the community is reluctant towards their health care and efforts are needed to increase health awareness.

the increase in health problems and lack of awareness in the people Gram Seva wishes to expand this project in all villages.

Health Awareness

Lack of Health awareness is the main factor for spread of

diseases. It also leads to mis-beliefs and unhealthy lifestyles. Gram Seva tries to increase health awareness in the community through various health education programs on different health issues, using audiovisual aids, for children, adolescents, self help groups and villagers. Health education sessions are also conducted for hospital patients and their relatives, during clinics and in wards.

Rural Development Projects

Poverty, Education, Sanitation and other social factors directly or indirectly affect Health. Gram Seva believes in overall development of the villages to improve Health. The focus has always been on women and children and hence different developmental activities in education, income generation, micro-finance etc have been started for them.

Education Projects:

“Shiksha Parab” (Development Centre)

Primary education in villages is poor. To strengthen primary education and improve the reading, writing and arithmetic skills tuition classes were started for children in the villages. Value education and skill development is also promoted through different extracurricular activities throughout the year. 261 children attended these classes this year. Total 14 Shiksha Parab Centres are functioning in the villages.

“Parodh” Child Education and Development Centre

The "Parodh" Centre provides free education facilities to children of migrant workers, widows and those in difficult

situations. At present 71 children are residing in this centre. Education, self reliance and overall development of the children is promoted through schooling and different activities like sports, kitchen gardening, yoga, educational films, cleaning and good nutrition. The "Parodh" centre building is a green building with eco friendly features like solar panels, steam cooking, biogas, rainwater harvesting, waste water recycling, energy saving appliances etc. So that the children also learn the importance of protection of the environment

This year 2 students passed their 12th std. and 4 students their 10th std. board exams. Gram Seva hopes to reach to more such children with your well wishes and support.

Cultural Activities by "Parodh" children

At the end of their school year in April, a cultural program was organized for the children. Mimes with social messages, songs, folk dances, dramatized folk stories were presented by the children. Those children who did well in different school activities were also encouraged by giving prizes.

Surekhaben was the resident of Endhal village and had redness and swelling all over her body. On the advice of Gram Seva field staff, she came to Kharel hospital for treatment. When she was advised to get admitted she refused and left without any medicines. Surekhaben's family consulted various other allopathy and non-allopathy doctors and spent quite some money on her treatment. She even went to local quacks and healers. But there was no improvement in her condition. She thus spent more than a month without proper treatment. Once again field workers persuaded her to consult doctors at Kharel hospital. This time she was agreeable and even got admitted. After various investigations she was diagnosed with leprosy and started on medicines. Today her condition has improved and she is taking her medicines regularly. Surekhaben's story shows that even today people need proper guidance, counseling and support to reach appropriate health services.

Women's Empowerment Projects

Sewing Classes and Handicraft production:

Sewing classes and Production of Handicrafts were started so that women in the villages acquire a skill for income generation and improve the economic status of their families. This year 38 young women attended the sewing class. Women also produce handicrafts and house hold toiletries. Products made by the women are sold through a retail outlet in the hospital campus.

Sangee Sanitary Napkin Project

Majority of women in rural areas are still using old rags for menstruation. This practice can lead to inconvenience and risk of infections. But women in the villages cannot afford the expensive sanitary napkins available in the market. More over they, are not easily available in villages and women do not have knowledge about their use and method of disposal. At the same time landless women do not receive enough work to support their families. To address these issues Gram Seva has started Sangee sanitary Napkin Project to produce low cost, eco friendly sanitary napkins by local women and also marketed by them. At present, 25 women are producing these napkins and selling them in their villages. The project which is funded by various donors started on a small scale. Seeing the local needs and preference three different types of napkins are produced like maternity napkins, wings napkin and ultra thin napkins. This year the women sold 10,426 napkin packets worth 2, 53, 294/- Gram Seva hopes to develop entrepreneur skills in the women so that they become independent and hence different trainings are organized for them throughout the year. These trainings are funded by Mr. Ramesh Shah (U.S.A.). The organization also conducts various health education sessions in villages and schools to raise awareness about Menstrual Hygiene. Thus the project not only helps women earn money through production and sale but also gives young women access to low cost, eco friendly sanitary napkins near their homes. Gram Seva welcomes support and guidance from well wishers in this project to empower women and help them become independent with dignity.

Nutrition Garden Project

Anaemia is rampant in villages and one measure to decrease anaemia is use of iron rich vegetables in daily diet. Gram Seva has started a project where women from 50 families are trained in identifying iron rich vegetables and growing them in their kitchen garden. They are also provided seeds and other guidance during this project. 2 trainings were organized with the technical support of Agriculture University, Navsari and an educational excursion was also arranged for the women. Seeing the importance of iron rich vegetables for their families women participated enthusiastically in this project. They shared the expenses for buying seeds and have started growing vegetables in their kitchen gardens. Gram Seva hopes that this project will help improve the nutritional status of these families and at the same time give inputs in methods to decrease anaemia in the community.

Mayaben a resident of Tankal village used to buy the commercial sanitary napkins available in the shops. But she suffered from itching and rashes after their use and had to spend nearly ₹150 every month for the napkins and treatment of the rashes there after. When she attended a women's meeting in the village she heard about the Sangee sanitary napkins which were made without any chemicals and yet had good absorption capacity. She used the napkins and since the first month of her use her rash and itching problem disappeared. And that too at less expense than the sanitary napkins that she usually bought. Now she is not only using Sangee napkins regularly but has become a depot holder for her village and sells the napkins and earns some money for herself.

*Example is not the main thing in
influencing others, it is the only thing.*

- Albert Schweitzer

Other Activities

Summer camp

Children in rural areas lack the variety of educational and developmental activities experienced by the urban children. Gram Seva arranged summer camps for the village children in their vacation with the financial support of Desai Foundation, U.S.A. Nearly 400 children participated in activities like making scientific toys, origami, thread painting, paper cuttings, story-telling, puppet making, best from waste etc. Volunteers from nearby villages enthusiastically participated in preparations and management of the camps.

Newly Married Couple Workshop

35 couples participated in the annual newly married couple workshop in June. They were given information regarding reproductive health, family planning, gender sensitization, healthy lifestyles etc. Videos and games are incorporated in the session to make them interesting.

International Women's Day Celebrations

Every year Gram Seva celebrates International Women's day with rural and tribal women from surrounding villages. This year the theme was Cancer Awareness. Senior Gynaecologist Dr. Leelaben Ramaiya spoke to the women about different cancers seen in women, their sign, symptoms, diagnosis and management. Representative of Human Wellness Foundation, Ahmedabad showed a film on breast cancer to the women. Mr. Tushar Sumera (District Development Officer, Navsari) attended the program and encouraged the women to improve their health. About 1100 women from surrounding villages attended this programme.

- 108 GVK Emergency Services has felicitated Gram Seva Trust, by giving 'Service Recognition' certificate, for its support in emergency services.
- International Association of Lions Club, distributed umbrellas and Hariom Charitable Trust (Adajan, Surat) distributed school bags to children of "Parodh" Centre.
- Exhibition cum Sale of Handicrafts and House hold

toiletries was arranged around Diwali. The exhibition was inaugurated by Smt. Ranjitaben Shastri, (Surat). Friends and well wishers like Smt. Laksmiben Mistry, Trustees and Staff wholeheartedly supported the exhibition.

- Gram Seva's staff enthusiastically participated in the Rangoli competition which was judged by Shri Kishorbhai Naik (Principal, B.Ed.College, Bilimora), Shri Shabbir Sheikh (Retd. Arts Teacher, Amlasad) and Shri Kamlesh Panchal (Abstract Advertising, Navsari). Fancy Dress Competition was also arranged for the children of "Parodh Balawas" and staff. The staff also enjoyed the Navratri dance arranged for them.
- Every year picnic is arranged for Children of "Parodh Balawas". This year the younger children enjoyed their picnic to the Surat Zoo. The older children went to Vadodara and visited the historical sites and museums in the city.

Changes in the Trust Board

This year 4 trustees, Shri Moghbhai Naik, Dr.Anilbhai Desai, Shri Nalinbhai T. Desai and Dr. Ratna Magotra resigned from the Trusteeship due to their health and personal reasons. Gram Seva appreciates their work, support and dedication throughout these years in the development of the organization and shall always remain indebted to them.

The Trust Board has appointed Dr. Sharmishtha Patil and Dr. Kanchan Dhadwe as new trustees. The Board is happy that these two doctors who are working for the organization since many years have accepted the trusteeship and joined the board.

Personnel Information:

1. Gram Seva welcomes Dr. Vishal Patel (Gynaecologist) and Dr. Parth Vyas (Community Health), who joined the organization this year.
2. Gram Seva pays homage to Late Shri Balubhai Valvi, who was a part of this family since 1996.
3. Heartiest Congratulations to Mr.Mihir Dave, Program Co-ordinator for completing his Ph.D

*Even if I knew that tomorrow the world
would go to pieces, I would still plant my
Apple Tree.*

- Martin Luther King

Acknowledgement

We heartily acknowledge and thank all for their help and support.

- All the well wishers and donors in India and abroad who support us in achieving our objectives.
- Donors of Gram Seva Foundation (U.S.A.) and Dr. Khushroo Patel and Shri Dineshbhai Shah
- Shri Timbadia (KVK, Agriculture University, Navsari) and his team for their support in our kitchen garden project.
- Shri Sameer Desai and Desai Foundation U.S.A for support to Balmela, Shri H.Varia (Retd. IAS, Officer), Smt. Divyaben Varia, for their continuous support in Balmela. Smt. Amrapaliben Desai (Vividhbharti Surat), Smt. Laxmiben Mistry, Members of Arch, Dharampur, Prachita Tailor, Viral Patel and others

AUDITORS' REPORT

(Under sub section (2) of section 33 and 34 and Rule 19 of the Bombay Public Trust Act 1950)

Registration No. : E/896/Navsari
 Name of the Trust : GRAM SEVA TRUST
 For the year ended : 31st March 2018

We have audited the annexed Balance sheet of GRAM SEVA TRUST [(Reg.No E/896/ Navsari) situated at : N. H. No. 48, At & Post: Kharel, Dist: Navsari 396430] as on 31st March 2018 as well as Income and Expenditure Account for the year ended on 31st March 2018.

We have conducted our audit in accordance with auditing standards generally accepted in India. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

- The accounts are maintained regularly and in accordance with the provisions of the Act and Rules
- The receipts and disbursements are properly and correctly shown in the accounts
- The cash balance and vouchers in the custody of the treasurer or trustee on the date of the audit were in agreement with the books of account
- All books, deeds, accounts, vouchers or other documents & records required by us were produced before us.
- A Register of movable and immovable properties has been maintained and the changes therein have been furnished to us.
- All the necessary information required by us has been furnished to us by the Trustees personally whenever called upon
- No property or funds of the Trust were applied for any object or purpose other than for the object or purpose of the Trust
- There are no amounts which are outstanding for more then one year and written off
- For repairs, tenders are not invited but for construction involving expenditure exceeding ₹ 5000/-, tenders are invited
- The money of the trust have not been invested contrary to the provisions of section 35 of the Act.
- There is no alienation of the immovable property contrary to provisions of Section 36
- There are no cases of irregular, illegal or improper expenditure or failure or omission to recover money or other property belonging to the public trust or of loss or waste of money or other property thereof.
- The provision of Budget to be filed under Rule in the form under Rule 16A is not applicable to the trust. However, the Trust has policy to prepare the Annual Budget.
- The maximum and minimum number of trustees is maintained during the year.
- The meetings are held as provided by such instrument.
- The Minutes Books of proceedings of the meetings are maintained.
- None of the Trustees has any interest in the investment of the trust.
- None of the trustees is any debtor of creditor of the trust.
- The irregularities pointed out by the Auditors in the accounts for the year under audit are have been duly complied with by the trustees.
- There is no special matter, which we think fit or necessary to bring to the notice of the Deputy or Assistant Charity Commissioner

Dr. A. A. Shah
(Managing Trustee)

You can help us...

Gram Seva Trust strives for Health and Development of Rural Communities, especially, its weaker sections like women, children and the elderly.

The activities of the organization depend on donations and hence there is a perennial need of donations and help. We sincerely request you to join us in these activities through your voluntary donations in cash or kind for the following:

Permanent Donations Scheme

1. Poor Patients Relief Fund.
2. Eye Care Fund.
3. Bhojnalay(Kitchen) Fund.
4. Women Empowerment Fund.
5. Children's Welfare Fund
6. "Parodh Balawas" Funds
7. Anniversary Donations: these are donations on birth, death or any other anniversaries for treatment or food for the patients. The interest on the amount shall be utilised on the same day every year for the same purpose. ₹. 15000/- for this fund is accepted. The Donors name shall be displayed on a board that day.
8. One Meal for Hospital Patients- ₹. 1100/- (20 U.S.\$)
9. One Meal for "Parodh" Balawas children- ₹. 2100/- (30 U.S.\$)
10. Eye Camp- An eye camp and free cataract operations of all those coming in the camp are organised on donation of ₹. 40000/- (800 U.S.\$) and ₹. 1500/- (25 U.S.\$) for one cataract operation.
11. Adopt one "Parodh Balawas" Child for educational expense: Rs.36000/year (600 U.S.\$/year)
12. General Donation

We also need donations for hospital and Balawas equipments. Kindly contact our office for more information.

We shall be happy to receive voluntary services in any of our activities like child education, skill development of youth and women, development of database, IEC materials, library, documentation etc.

Donations can be sent through cheques, Demand drafts or direct transfer, in the name of Gram Seva Trust.

All donations are tax exempted under 80G in India.

Donations in U.S.A, can avail tax exemption if donated to Gram Seva Foundation a 501(c)(3) tax exempt charitable non profit.
